Attention to detail(Word, Number, Images) -1

Attention to detail

Attention to detail Questions are asked from word,number and images to test abilities that employers and hiring managers look for the most in job candidates. Any person who has high attention to details has thoroughness and accuracy when accomplishing a task through concern for all the areas involved.

Question: 01

How many 9 are followed by an even number and preceded by an odd number in the following series?

469259339467924894

- A. 3
- B. 5
- C. 4
- D. 2

Answer: D

Explanation:

394 and 792

Question: 02

Two twins have certain peculiar characteristics. One of them always lies on Monday, Wednesday, and Friday. The other always lies on Tuesdays, Thursdays and Saturdays. On the other days they tell the truth. You are given a conversation.

Person A-- today is Sunday, my name is Ram.

Person B -- today is Thursday, my name is Shyam. What day is today?

- A. Tuesday
- B. Wednesday
- C. Thursday
- D. Friday

Answer: C

Explanation:

On Sunday both speak the truth and on rest days both speak truth and lie alternatively. Had it been Sunday both would have said that it is Sunday. So A is telling a lie and when one person lies other speaks the truth .Hence B is speaking the truth .hence today is Thursday.

Question: 03

Read the following information carefully and answer the questions given below it.

A, B,C,D and E are five friends.B is elder to E, but not as tall as C.C is younger to A and is taller to D and E.A is taller to D, but younger than E.D is elder to A but is shortest in the group.Who among the following is the eldest?

- A. A
- B. B
- C. Either B or D
- D. Neither B nor D

Answer: C

Explanation:

In terms of age, we have $E < B$, $C < A$, $A < E$, $A < D$,

So we have: $C < A < E < B$, $A < D$.

In terms of height, $B < C$, $D < C$, $E < C$, $D < A$. So Either B or D is the eldest.

Question: 04

When the number 153,810 is divided by n , for which n is the remainder largest ?

- A. 5
- B. 6
- C. 7
- D. 8
- E.

Answer: D

Explanation:

153,810 is divisible by all the numbers in the list except 8. Hence, 8 must give the largest remainder.

Question: 05

There are some chairs in a room. If 6 men sit on each chair, then 4 chairs are left unoccupied. However, if 4 men sit on each chair, 4 men are left standing. How many men are there in the room?

- A. 50
- B. 55
- C. 60
- D. 65

Answer: C

Explanation:

Let there be x men in the room.

When 6 men sit on each room, number of chairs $= (x/6 + 4)$

When 4 men sit on each chair, number of chairs $= (x-4)/4$

$$(x/6 + 4) = (x-4)/4$$

By solving, $x = 60$.

Hence there are 60 men in the room

Question: 06

Salina has over 4 years of experience in Care Touch, a leading call centre, as a manager. She completed her MBA from Ranchi and worked in Singapore for UNO for 2 years before joining Care Touch. She will be:

- A. Recruited
- B. Rejected
- C. Interviewed by the VP Operations
- D. Data insufficient

Answer: A

Explanation:

Obviously before she will join this company she would be Recruited.

Question: 07

If * stands for /
/ stands for -
+ stands for *
-stands for + ,Then $9/15*9+2-9=?$

- A. 15.3
- B. 14.7
- C. 14.1
- D. 16.2

Answer: B

Explanation:

$$\begin{aligned} &9-15/9*2+9 \\ &=18-30/9 \\ &=132/9 \\ &=14.66 \end{aligned}$$

Question: 08

Read the following information and answer the questions that follow.

There are five brothers – Stephan, Kevin, Mason, Aaron and Ryan. Mason is the tallest. Stephan is shorter than Kevin but taller than Ryan. Aaron is a little shorter than Kevin and little taller than Stephan. Who is the shortest?

- A. Aaron
- B. Ryan
- C. Mason
- D. Kevin

Answer: B

Explanation:

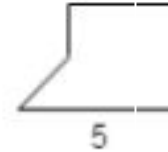

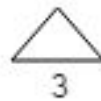

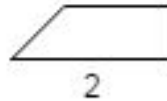

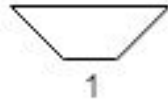

Let's denote the 5 boys by the first letter of their names: S , K, M, A and R.

Then $M > K > A > S > R$.

Ryan is shortest

Question: 09

Select three figures out of the following five figures which when fitted into each other would form a square.

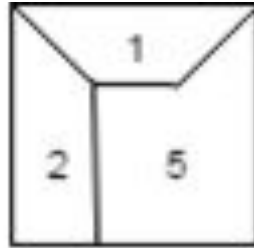

- A. 1,2,4
- B. 1,2,5
- C. 1,3,5
- D. 2,3,4

Answer: B

Explanation:

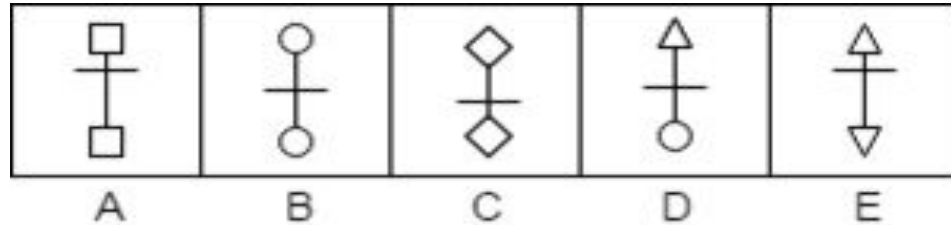

Figures 1, 2 and 5 will form the square as shown in the following image.

Question: 10

Which of the following figures is different from others?

- A. Figure A
- B. Figure B
- C. Figure C
- D. Figure D

Answer: D

Explanation:

Only in figure D, the symbols on either side of the horizontal line are different.

Question: 11

A.

B.

C.

D.

Answer: D

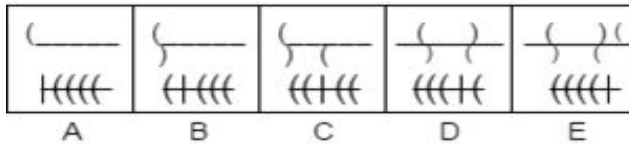

Explanation:

A button is a part of the shirt, and it is used to fasten the shirt. Similarly, a belt buckle is a part of a belt which is used to fasten the belt. So, the belt buckle would go in the empty box.

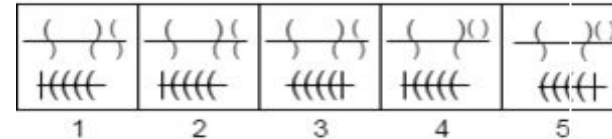

Question: 12

Which answer figure will continue the same series as established by the problem figures?

Problem figures

Answer figures

- A. 1
- B. 2
- C. 3
- D. 4

Answer: A

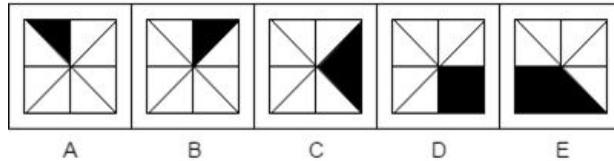

Explanation:

In the upper part of the problem figures in each step, an arc is added to the previous arc so that it looks like the alphabet S. And, in the lower part of the problem figures, the vertical line is moving one step ahead in each step. So, the answer figure 1 will continue the series.

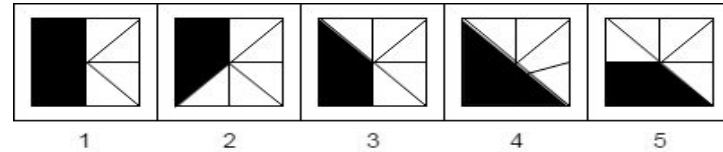

Question: 13

Which answer figure will continue the same series as established by the problem figures?

Problem figures

Answer figures

- A. 1
- B. 2
- C. 3
- D. 4

Answer: C

Explanation:

The shaded portion moves one step ahead clockwise. Also, an extra portion gets shaded after one step. So, the answer figure 3 will continue the series.

Question: 14

If it is possible to make a meaningful word, using the 3rd, 5th, 8th and 9th letters of the word 'PARLIAMENT', then what is the third letter of the word formed? If no such word be formed, mark the answer as 'Y'. If more than one word can be formed mark the answer as 'X'.

- A. P
- B. I
- C. E
- D. T

Answer: B

Explanation:

The 3rd, 5th, 8th and 9th letters of the word 'PARLIAMENT' are R, I, E and N.
The only word that can be formed using these letters is "REIN."

Question: 15

Substitute the correct mathematical symbols in place of * in the following equation:

$$16 * 4 * 5 * 14 * 6$$

- A. $\div \times = +$
- B. $\div - = *$
- C. $- * + =$
- D. $\div + = -$

Answer: A

Explanation:

$$16 * 4 * 5 * 14 * 6$$

$$16 \div 4 * 5 = 14 + 6$$

$$4 * 5 = 20$$

$$20 = 20$$

Hence, option C is the correct answer.
